NOTARY PUBLIC.—A day or two since,

French Compton, Esq., of Marion

county, was appointed a Notary Public

by Governor Stevenson.

SOMETHING NEW IN WATERPROOF.

Just opened at George R. Taylor & Co.'s;

also beautiful Figured and Plain

Piques, Poplinettes and Lisle Poplins.

To BE RE-ARDED.—Many persons

have been awaiting the decision of

the Court of Appeals in the Steenrod

will case. On Tuesday morning the

Court announced that as the bench

was not full when the case was argued

at the former term, it was desirable

that a third member of the Court had

taken his seat on the bench. The second

argument, we presume, will not be

made before the July term.

ACQUITTED.—Yesterday morning the

Jury in the case of the State vs. Sch-

ner, on trial for misdemeanor, brought

in a verdict of not guilty. The defend-

ant was, therefore, set at liberty.

This case has excited more than usual

interest in this community. The crime

with which the prisoner was charged

was so revolting in its character that the

result was watched with great anxiety

by the numerous friends of the prosecu-

tor and defence.

ZANE STREET CHURCH.—The entertain-

ment at Zane Street M. E. Church

on Tuesday evening was a splendid suc-

cess. The weather was unpropitious,

yet the basement of the Church was

packed full. Everything passed off

most pleasantly, and quite a hand-

some sum was realized. The Zane

Street folks acquired a reputation long

ago for their admirable management

of such affairs, and they are maintain-

ing it.

THE REASON WHY.—Some say it is

strange that President Grant did not

see the law of 1870 before he appointed

Stewart a place in his Cabinet. Had

Grant been provided with a pair of

those superior spectacles sold at Oxtoby

& Duffield's Jewelry Store, 103 Main

Street, he would have seen his way

clearly. "A word to the wise" &c. In

addition to every style of glass, at this

house can be found everything in the

State Wool Growers' Meeting.

The State Wool Growers' Association

met at the Grant House in this city, on

Tuesday, according to adjournment.

The President being unable to attend,

Mr. J. B. Kelly, of Ohio county, was

called to the chair.

Report of the Treasurer was received.

The Chair appointed the following

Committee on Resolutions: Messrs.

C. H. Beall, J. C. Gist, G. G. Orr and

Samuel Archer.

On motion the present officers were

re-elected for the ensuing year, viz:

President, Hon. Thos. Sweeney; Secre-

tary, J. C. Palmer; Treasurer, Thomas

Buchanan; Members of Executive

Committee of National Association,

Messrs. — Davis and Samuel Archer.

Committee on Resolutions reported

as follows:

Resolved, That we are opposed to any

treaty with Canada or any other coun-

try, which would subject the wool and

woolens on any other conditions

than under the present tariff, and we

desire that it remain for the present as

it now is in force.

Resolved, That we heartily endorse

the resolutions passed by the New

York Wool Growers' Association, and

we would especially commend to the

attention of our Legislators and officers

of the Government the 2d, 3d, 4th and

5th resolutions.

Resolved, That we respectfully pro-

test against the making of any treaty

or other arrangement by which the

trade and commerce between our

country and the British Provinces

shall be placed on any other or differ-

ent basis than it is with all other na-

tions and Provinces.

Resolved, That while we are ready

and willing to bear our just proportion

of the taxes made necessary by the late

rebellion, we insist that the production

of our farmers be entitled to protection

against foreign competition equally

with the production of the manufac-

tures of the various articles that are

consumed in the country, and that

we be permitted to import and export

as we please, and to purchase all that we

consume, not produced on our farms, at the

enhanced prices of the high price of

labor, and the taxes laid by the Gov-

ernment on such articles of consump-

tion, and at the same time take from

us our present protection as provided

in our tariff laws.

Resolved, That the enhanced cost

of our productions, created by the de-

bet of the country, is in nowise less than

the enhanced cost of manufactured ar-

ticles; and we can no more submit to

yield our markets to the unbridled pro-

ductions of the British Provinces, than

can the manufacturers of cloths, iron

or any other commodity.

Resolved, That we, as farmers, are

entirely unwilling to be traded off in

any other treaty that has for its object

the promotion of competition with

the financial condition of the country

justify the deducting from the national

revenues the duties now paid on British

Colonial productions, nor are our

financial affairs, as farmers, so pros-

perous as to justify building up these

provinces into a great and rich na-

tion at our expense.

On motion of Dr. Gist, the report of

the Committee was received, and after

some remarks, was adopted unani-

mously.

The following resolution was unani-

mously passed:

Resolved, That we sympathize with

our worthy President, Mr. Thos. Sweeney,

in his protracted illness, and assure

him of our earnest wishes for his

speedy restoration to health.

On motion of Mr. Beall, the Secre-

tary was instructed to furnish the city

papers copies of the proceedings of this

Robbery.

We fear that robbery is

again about to assume an epidemic

form in our city. We reported two in

yesterday morning's paper and have the

same number for this issue. None of

them, however, assume very large pro-

portions, but they may be precursors

of some large transactions not far in the

future. Should these proceedings con-

tinue, our citizens will have to resort to

that last refuge of an outraged commu-

nity—a Vigilance Committee. Whether

that stage has not been already reached

they must judge for themselves.

The meanest robbery we have heard

of was that of the residence of Mrs. W.

G. Battelle, on the Island, a few nights

since. We were unable to get the par-

ticulars, but were told that a number

of articles were taken. Our readers will

remember that Mrs. B. was deeply be-

trayed only last week by the death of

her husband, and if there was needed

any additional proof of the doctrine of

total depravity, we think the fact that

she exists with a heart bent

enough to rob the home of a lady under

such circumstances, furnishes the full

evidence of its truthfulness.

On Tuesday evening an entrance was

effected through the rear door of Mo-

manaway's saloon, on Main street,

North Wheeling, and the contents of

the bar to the amount of forty or fifty

dollars were carried away.

HOMEWARD BOUND.—Ten or twelve

genuine Red men of the forest crossed

the river at Bonwood on Tuesday even-

ing, en route from Washington, where

they had been to see the Great Father

inaugurated. A gentleman who travel-

led with them for a day informs us that

they were splendid specimens of men

in physique, and seemed to be deeply

interested in whatever was new to

them. They were in charge of a Com-

missioner who acted as interpreter and

looked special pains to make their trip

pleasant. The party will carry to their

far western homes enlarged ideas of the

power and resources of their pale faced

brethren.

The location of the Capital has not

diminished the demand for Perkins,

Stern & Co.'s pure California Wines

and Brandy for medicinal purposes, at

E. Boeking's or Boeking & Miller's.

MANY years ago the writer of this

notice and an invalid physician, while

visiting the Island of St. Croix for their

health, experienced and witnessed

many surprising and beneficial effects

of the Ram there produced upon many

of the invalids who were, like our-

selves, seeking health, and upon in-

quiry and investigation obtained a full

history of its medicinal virtues. He

was delighted and surprised, and de-

termined to make it the basis of a Tonic

and Restorative Medicine. The result

of his labors was a glorious success for

himself and suffering humanity. The

celebrated PLANTATION BITTERS was

thus made known to the world. Being

an article of real merit, founded on

new principles, and relying wholly

upon the vegetable kingdom for its
